	Examiner Anthony D. Barfield	Art Unit 3636	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Elqadah et al. Elqadah et al. shows a vehicle seat, having a backrest (12) and a seat element (16,20) provided at the free end of the backrest, characterized in that the seat element is pivotably linked to a backrest structure of (Fig. 3) the vehicle seat, the seat element being pivotable relative to the backrest structure about a pivoting axis (87) that is substantially orthogonal to a longitudinal axis of the vehicle, wherein the seat element acts, at the same time, as a headrest and as protection against rollover. The seat element has a U-shaped structural element (20).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Elqadah et al. Elqadah et al. shows the use of a seat element (16,20) which can be folded out of a backrest (see Fig. 2). Elqadah et al. shows all of the teachings of the claimed invention except the use of a

Art Unit: 3636

cabriolet vehicle. Elqadah et al. has disclosed that the apparatus may be used with a vehicle seat of a vehicle that experiences rollover which inherently may be a cabriolet vehicle. It would have been an obvious matter of design choice to modify the invention of Elqadah et al. to be used within a cabriolet vehicle, since applicant has not disclosed that a cabriolet vehicle solves any stated problem and it appears that the vehicle of Elqadah et al., would perform equally well.

Response to Arguments

5. Applicant's arguments with respect to claims 1-2 and 7-9 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

6. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 10-11 are allowed over the prior art made of record.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3636

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
